SunEdison Buys, Sells Stake in 231 Megawatts of Dominion Solar

....

SunEdison expanded aggressively last year, That prompted investors to question how it would fund the wind and solar farms it's planning around the world. After its shares tumbled 83 percent in the second half, the company has been seeking to sell projects and reduce debt.

....

SunEdison has lost 86 percent of its market value in the past year, the worst on the WilderHill New Energy Global Innovation index of 104 companies.
