

Excerpt from Raymond James, February 20, 2020

**... .. after Recent ESG-Fueled ....**

We are making a ... following the .... itself impressive gain of the clean tech benchmark (ECO index). This is all taking place in the context of the ESG investing trend that has contributed to spurring [the most bullish sentiment](#) on clean tech as a whole in more than a decade, and quite possibly ever. ... , in other words, is just one manifestation of this much broader trade.
