The ETFs with the greatest momentum going into 2021

Here are the ETFs and ETNs with the strongest price performance going into 2021, excluding leveraged and inverse ETFs. We've listed the ETFs with the strongest three month performance, and also provided their one month performance.

We've grouped the ETFs by theme. There are four themes behind the ETFs with the greatest momentum going into 2021: (i) clean energy and electric cars, (ii) cannabis stocks, (iii) oil and gas, and (iv) areas which will benefit from a rebound in the economy,

Clean energy and electric cars: Invesco WilderHill Clean Energy ETF (NYSEARCA:[PBW](#)), one month +14%, three months +72%. Invesco Global Clean Energy ETF (NYSEARCA:[PBD](#)), one month +16%, three months +69%. ... Solar ... , one month +21%, three months +58%.
