## BlackRock New Energy NAV up 27.4%

BlackRock New Energy Investment Trust's net asset value rose by 27.4% ion the year to the end of October.

This compares with a 23.5% rise in the ... Index while the new energy sector, as measured by the WilderHill New Energy Global Innovation Index, increased by 63.4%.

....

BlackRock New Energy said its under-performance relative to the WilderHill New Energy Global Innovation Index partly reflected the company's lower weighting in renewable energy [technology](#) stocks.

....
